

FAST MOVER

Automotive Refinishing

FMT100

Classic Trestle

Product Information Guide

T: +44 (0)1582 661993 **F:** +44 (0)1582 667100 **E:** sales@fastmovertoolsuk.com

Operating Instructions

Technical Specification

SWL: 160kg
Width: 1000mm

Safe Usage

- 1 Build up the Trestle ensuring all the fixings are tight.
- 2 Check that the hook (FMT100/HK) is running parallel to the ground when the trestle is open (*see image*). This will prevent the chain from slipping off the trestle and collapsing.

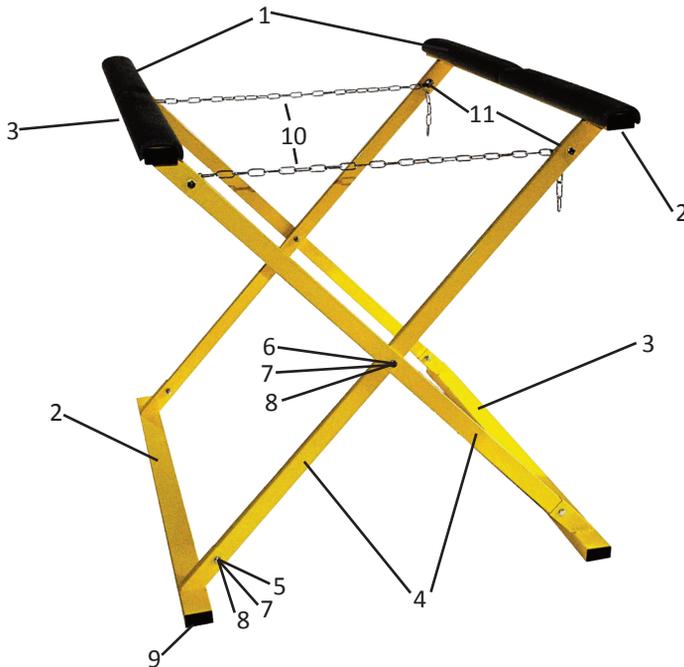

- 3 Always use the FMT100 Classic Trestle on a level surface. Don't attempt to use it if the trestle is rocking or in anyway unstable.
- 4 The FMT100 Classic Trestle has a load rating of 160kg provided both chains are hooked up correctly. ALWAYS MAKE SURE BOTH CHAINS ARE HOOKED UP BEFORE USE.
- 5 The FMT100 Classic Trestle is designed for vehicle panel preparation and spraying. Do not attempt to sit on it or use it as a standing platform. MISUSE OF ANY TOOL OR STAND COULD LEAD TO SERIOUS INJURY AND DEATH.
- 6 Always wear relevant PPE in accordance with HSE guidelines and your own Health and Safety policy.
